Hot Issues

Proposal to Withdraw Proposed Determination For the Bristol Bay Watershed (AK): On July 11th EPA will propose to withdraw the 2014 Clean Water Act Section 404 (c) Proposed Determination to restrict the use of certain waters in the Bristol Bay watershed as disposal sites for dredged or fill material associated with mining the Pebble deposit. EPA agreed to initiate this proposed withdrawal process as part of the May 2017 settlement agreement with the Pebble Limited Partnership. EPA will take public comments for 90 days following the publication of the Federal Register Notice and will initiate a concurrent tribal consultation period. Senator Lisa Murkowski has expressed interest in ensuring that affected tribes and the fishing community have sufficient time and opportunity to participate given that the comment period begins during peak fishing season.

Bristol Bay: This week, OW anticipates sending forward for your signature, the final tribal consultation letters, initiating a 90-day tribal consultation period on EPA's proposal to withdraw the Bristol Bay/Pebble 404(c) Proposed Determination. Per the May 11, 2017 Settlement Agreement, EPA must initiate a process to propose to withdraw the July 2014 Bristol Bay/Pebble 404(c) Proposed Determination by July 11, 2017. Next week, EPA R10 will sign and post on EPA's website an FRN announcing a 90-day public comment period on the proposal to withdraw. Concurrently with the public comment period, EPA will initiate tribal consultation on the proposal. The signature package to you will include separate letters to both federally-recognized tribal governments and ANCSA Corporations in the Bristol Bay region.
